Website: <http://www.save-foundation.net>

Network: <http://www.agrobiodiversity.net>

## Services offered by SAVE Foundation and the SAVE Network

As a European Umbrella Organisation SAVE offers the following services:

- Exchange of contact details of international organisations and authorities
- Information about European/International legislation, treaties and financial support mechanisms
- Organisation of international expert workshops and seminars
- Logistical help for national and regional activities
- Exchange of knowledge between partner organisations
- Coordination of cross-border conservation projects

Alongside this, cooperation partners can utilise the extensive databases of the “Monitoring Institute for Rare Breeds and Seeds in Europe”

### Promotion for Stakeholders and Organisations

- Agrobiodiversity.Net  
Web portal for promotion of organisations in Europe that are concerned with the conservation of endangered livestock breeds and cultivated plants. Partners in the SAVE Network are especially emphasised => [www.agrobiodiversity.net](http://www.agrobiodiversity.net)
- ELBARN  
The European Livestock Breeds Ark and Rescue Net co-financed by the EU Commission and the Swiss government => [www.elbarn.net](http://www.elbarn.net)
- Arca-Net  
Arca-Net is a database-supported Internet presence used as a tourist guide and network of institutions, open to the public, which have a show of local and traditional agrobiodiversity. It is multilingual with comprehensive search functions and numerous extension options => [www.arca-net.info](http://www.arca-net.info)
- Fruit-Net  
Network for old and forgotten fruit and berries: online inventory of the remaining variety diversity and the organisations that conserve them => [www.fruit-net.info](http://www.fruit-net.info)

### Influences within the SAVE Network

- Council of Cooperation Partners (CCP)  
The SAVE Meetings mirror the active network: the CCP is an exchange and discussion body for the partner organisations. The CCP can make recommendations to the Board of Directors
- Project Commission (PC)  
In the PC projects are discussed on the European level. Ideas and projects can be contributed throughout the year and also at Network Meetings

=> In the SAVE Network, project experience and information is shared and partnerships in projects negotiated. The activities of the organisations and the output of these is therefore dependant on their engagement in the Network.
